#### Response to League of Women Voters Vote411 Voter Guide:

Do you favor legalizing marijuana for non-medical personal use in Delaware?

✓ **Oppose**

**Explanation:** I was a sponsor of medical marijuana and voted for its passage. And, this year, I introduced HB 374 which added glaucoma and cluster migraine headaches as illnesses that were added to our medical marijuana law. I was also a co-sponsor of legislation that decriminalized small amounts of marijuana for personal use. But, at this time, I do not support legalization as it is currently constructed.. I am continuing to listen to the discussion and to the residents of the 14th District, but I have concerns about legalization that would have to be addressed before I could support it. A big concern is that the legislation as written would have created two new divisions of government and created 28 additional state employee positions.
